

# Newmerical Technologies' 2011 Icing Course in Shanghai, China: a Great Success

Newmerical Technologies International held its annual in-flight icing course **“Simulation Methods Used for the In-flight Icing Certification of Aircraft, Helicopters and Jet Engines”** in Shanghai, China on October 10-14, 2011.

The course was exceptionally well attended by 88 engineers from various organizations in China, India and Korea. Instructors came from Canada, USA and China: Mr. John Dow DER Consultant (former FAA); Dr. Alberto Pueyo (Icing Lead, Bombardier Aerospace); Mr. Liu Pengfei (Beijing Vision Strategy Technology); Professor Wagdi Habashi (McGill and President NTI).

The course was locally organized by Beijing Vision Strategy Technology Ltd (China) in charge of NTI's sales in China.
